

Hello, my name is Ray DeFiore and because of the previous video, that I did it free talking, my story didn't come out good. So I wanted to recap my story a little.

Just to let you know that my story is real, God did give me a plan for America, and yes, He has said that one day I would be The President, and yes I will be acting as interim President until you can get somebody better, but my thing is not political, it is spiritual and God seeks to heal this nation mentally, emotionally, spiritually, and socially, and no I don't have mental illness.

This is God's plan, not mine. And God's thinking and not mine, these are His ideas, and this does not mean I am important, it means that you are important, and all that matters to God is that I will do what He says. That is all.

I lived and grew up in North Plainfield, NJ, and my father was Rocco DeFiore and he worked in General Motors, and he was always faithful to his family and my mother. I think he helped a lot of people, sometimes get jobs in General Motors in Linden, NJ. He also helped people with their taxes sometimes. When my dad died in 2007, a little later, my aunt, who is Hispanic, and was trying to learn English, told me that my dad went over there to teach her English. I never heard about that story. My mother was from the Dominican Republic and she was a seamstress in our house and ladies would come over the house to get their hems stitched up.

My mother was funny and she had lots of love for other people. She was a bread maker in the kitchen and she would make for instance peanut butter and jelly bread and she would give it away to friends and family. Later, she got into her pizza kick, and the pizza wasn't really that good, but she gave it away. On both sides of my family, I never saw domestic violence or that type of messed up homes.

We took nice family vacations at Lake George, NY and that was a lot of fun.

I had severe bouts of depression as a kid. Luckily, I was never interested in guns and as a kid, I was never around guns.

Around 17 or 18 I remember being on my porch and having very somber feelings about the assassination of John Kennedy. For some

reason it bothered me a lot. I really at that time knew nothing about John Kennedy because we only had a black and white television, and I did no reading of Mr Kennedy. I just remember feeling bad about that and that he was probably a good President, and that was why he died. I felt that it was a wrong that had to be righted. It just bothered me deeply sometimes and I would think about it, just not sure why.

I knew and felt that something was terribly wrong in the world but I did not know what it was. I could feel it, that something was off.

My 20's and 30's were uneventful, I had a few close friends and went to concerts sometimes, but I knew something was still off, and I was restless sometimes.

I had this internal feeling sometimes, that God had to keep me alive for a some reason, but I had no idea why. I did have terrible dreams of pandemonium and chaos in the streets.

So in 1994 I left New Jersey and got into my car, and moved to Greensboro, NC. And I was mad at God a lot. I have been a Christian since I was 21 years old, and got saved at a great church, Faith Fellowship ministries, with a great pastor, Dr. David Demola. I had fun and great times at that church, and after church I liked going to the Diner afterwards and talking to other members. That was fun.

But when I left NJ I was mad at God because I gave Him my whole life, but nothing in my life was working, and it seemed everywhere I looked there was so much evil. I could not stand to see elderly people being exploited and their houses stolen by crooks, that pissed me off a lot and it bothered me.

So God said at the time to me "You think that I do nothing and let all this evil take place don't you? Well sit down, I want to show you something, what I will do." This is the way that God was talking to me at that time.

So right after I left New Jersey there was consecutive severe Snow storms in New Jersey, and my dad told me that the snow was piled up so high, like 10 feet or so, that you could not look around the corner, and when the snow finally cleared up and melted, all the roads were in

terrible shape, they had so many pot holes that they had to fix all the roads. I don't know if you remember the Snow storm of 1994.

But also, the FBI raided a bunch of criminal enterprises, and a famous Somerset county prosecutor named Nicolas Bissel was arrested and sent to Jail, which was good. His mother put up bail for him with her house as collateral, and he bolted to Nevada, trying to escape the law. They say they caught up with him in a hotel room, and he committed suicide, but I still think they had orders to gun him down and murder him, because the corruption was so off the charts, that Nicolas would probably name other conspirators in court.

I still have don't believe the News or what is told, because I have a hard time believing compulsive liars that try to keep the weak narrative going.

So on 9/11, I was amazed, and I didn't believe anything on the news, it made no sense. They hate our Freedom? If we had any real freedom, they would be our friends and want to know how we did it. It bothered me that people believed the nonsense they were promoting on television.

Because of the new internet I started wanting to know the world I really lived in, and I started really thinking critically.

This is a bad idea, as some men have found. It is too deep and too evil to explore. I was reading books like Behold a Pale horse by William Cooper and reading other stuff.

At around 2008 I saw in my mind's eye the New World Order system, and how diabolically evil this thing really was. I have told people before, if they try defending this system, that they are defending the very thing that will kill them, and all of their family.

But even more terrifying to me was the brain washing, that in my mind I saw massive amounts of people walking to their own death, because of brain washing. This absolutely terrified me because I did not want to watch a Holocaust. I had a terrible mental and emotional breakdown.

So I went into a mode of asking the question, “how do you stop a tyranny?” And I thought for hours and hours and many weeks and months how to stop these people.

My response to massive brain washing and mind control, which is really ownership of human beings, was totally different than everyone else. I didn't sit there and laugh and make stupid jokes about it, I wanted to deprogram myself, so I would not get caught up in it. This was about 2004 or 5. So I was looking for ways to deprogram myself, the first thing that I thought about was Buddhism.

So I went to a Buddhist temple near my home and talked with them, and they gave me a book, and while driving I read a couple pages of it and threw it out my window.

I got into the routine of saying Om over and over again all day long. I thought that sound vibration might help me deprogram.

A very influential book that I have read and stayed in for a long time was The Body Snatchers by Susan Reed. According to David Icke, her real name was Jennie Gosbell, and she said that a Reptilian race of people were taking over the world, and that these were real beings, and that their more common name is Satan.

But everything that she said lined up perfectly with reality. Everything that she said was coming true, using lack of Nutrition as a weapon to create sickness and disease. She lists several different weapons, and everything that she said came to pass, it happened.

For instance, to feed the population, the farmers would plant crops of vegetable closer together instead of farther apart, and because of this, the vegetables are not getting the nutrients it needs, and thus our food supply is deficient in many vitamins and minerals, and this causes problems in our health.

And I still do believe very strongly, even though I have never actually seen a reptilian being, is that there is a much higher non human intelligence that is working, that is pure evil. I have seen much evidence of this, but you have to go digging in very deep spirituality, but it is there. There is an evil intelligence at work, destroying humanity.

So for several years I sought for a way to protect myself from these people, but also for a way to protect other people, and have us stop these crazies, and many will say these people must be stopped, and that is the bottom line.

So in 2012 I was living in an apartment in Burlington, NC and I was watching some You Tube Videos, and I came across a video about the Azusa Street Revival, which happened between 1906 and 1909.

At this point, I saw red flags coming up in my thinking, because I thought, “What are these controllers hiding and why?” I learned to think in terms of What are these people, who control all of the world, what do they want to push under the rug?

So I wanted something real, so I thought that I will replicate the Azusa Street Revival in my living room, so I began praying and praising in my living room for hours on end, I would actually time myself for like 7 hours or so.

But I was doing this for several days and out of nowhere, out from left field, the Holy Spirit asked me a question. He said “Who are you praying to?” And I said Jesus. And He said, “from now on pray to me the Holy Spirit.”

Because of Napoleon Hill’s book Think and Grow rich, I started keeping a notebook and writing stuff down.

So I started writing down my prayers in the Prayer notebook, and when one notebook got filled, I would get another one, to crystallize my thoughts.

But I kept praying in my living room and the Holy Spirit said the second thing to me, which altered my life. He said “it was because they listened to My Voice.”

And I was stunned, and for the first time in my life, I saw the greatest secret in the world. I was for years in my Christian life trying to make Faith work for me, believing this or that. Or by using some mental technique. But for the first time in my life I saw the Truth, and it made sense to me what Kevin Trudeau was saying in his lecture, Who are you listening to? The whole entirety of the Old Testament is based on

Listening for and obeying the Voice of the Holy Spirit, but because of the way the bible was written, using the word Commandment, it throws everyone off, because people would normally consider that it is talking about the 10 Commandments. Commandment here means what the Holy Spirit is telling to you, personally to do.

And also, the way the bible was written, it says to listen to the Voice of the Lord thy God, but the word Holy Spirit does not come up until the New Testament. So it is impossible to recognize that the Holy Spirit in the new Testament was spoken of in the Old Testament.

This is the doctrinal error that has ruined civilizations.

This right here, ladies and gentlemen, is the doctrinal error that has plunged nations into chaos and tyranny. That the True doctrine is not based on Faith, but on listening to the Voice of the Holy Spirit.

This alone is the reason there is so much human suffering in this world.

So after many years of trying to make Faith work for me, I aborted this idea completely and adopted Listening for and Obeying the Voice of the Holy Spirit. And my life slowly started getting better. I found out at the time that I was severely magnesium deficient, and I found that out by Listening for and Obeying the Voice of the Holy Spirit.

My understanding starting going up a little and I realized how this doctrinal error has cost everyone big time. Of course I was also very concerned about America and that these crazies are creating a hell on earth, but I became convinced of two things, that this is the right way, but also that I could somehow use the Holy Spirit to deprogram people on a massive scale, and than we would immediately get our nation back.

Because of this God started speaking to me a little here and there. In the early part of 2013, I had made a solemn promise to God that if He would help me, I would try to stop this tyranny from happening. But He would have to help me.

Unfortunately, in February of 2015, I went to jail and then prison and I got out technically on December 22, 2020, but because of Covid 19 I was quarantined in a hotel room in Durham, NC. They made threatening statements to me while I was locked up in a hotel room.

They made threats that they would never let me go out of the hotel room unless I had a home to go to. But they were also making sure that I could not get a place to go to. Others coming out of prison have had similar experiences. In Johnston Correctional facility, they conspired for months and months to make certain that I had no home to go to. Johnston Correctional Facility is located in Smith field, NC. So now, being locked up in a hotel room, they were making serious threats against me. My friends started getting worried because they were not releasing me.

But anyway, while I was in prison, I was hearing the Voice of the Holy Spirit, and that is where I learned how to download information from the Holy Spirit. In the end, the Holy Spirit kept telling me to shut up and not say anything, because they were plotting against me to keep me there indefinitely. They would use psychological warfare at me many times, to get me to say “I am going to kill you when I get out”, but that didn’t happen because the Holy Spirit kept having to shut me up, because they wanted to keep me there indefinitely.

So now their excuse was Covid, they had to keep me locked up in a hotel room to quarantine me. And again, they said very threatening things to me that they were never releasing me.

So I prayed and prayed, and the Holy Spirit told me what to do. My sister gave me a computer, and I would write a very damning letter, and I would e-mail it to everyone in Department of Public Safety. This was on a Sunday, and I told them that they would have to quit their jobs because they were keeping me hostage in a hotel room, and I told women all the evil things that the men were doing.

And Voila! That was on a Sunday, and that Sunday is the day that I had a place to go to. Amazing!

So the Holy Spirit led me out of prison.

And as time went on I kept perfecting HSC. My original name was Old Testament Christianity, but after a while I didn’t like that, so than I call it Holy Spirit Christianity, but after some conviction on the use of His name, I renamed it HSC.

And that is my story. I know it seems simple, but I don't know if anyone will ever appreciate how difficult it was for me to bring this information to you. The work on it was unreal.

Just one last word, HSC is the plan that God has given Us for America, to do this together. Believe me when I tell you, I am not being arrogant when I say, that there is no future for us or for our children if we do nothing. This is the plan that God has Unveiled to me for Us. With doing this together, we have a future, if we do nothing there is only death and Slavery, that is all.

So please help me, go to rayhsc.com and open the two pdf's Your temporary prayer Notebook, and the prayer packet. And if you live near Greensboro, NC than call me up 336-482-7673, so we can organize something together. Thank you,
